TartanHacks 2014 *Bloomberg* Award
15-112 Fall 2013 Term Project Finalist

Newton South High School
Cum Laude, AP Scholar with Distinction,
Music Department Band Award

EXPERIENCE

Quantitative Hedgefund Manager
Summer Technology Analyst
- Currently classified, pending HR approval

Carnegie Mellon University
Fundamentals of Programming and Computer Science Course Assistant, *School of Computer Science*
- Lead a weekly recitation of 25 students
- Privately tutor students on course material
- Grade homework assignments, quizzes, and tests
- Serve as a personal term project mentor

Work Study, ECE Information Technology Services
- Maintain laboratory and cluster computers
- Monitor and update printer infrastructure
- Provide technical support to students and faculty

PROJECTS

sleep *(Personal Project)*
- Visualize personal sleep data from sleep tracking app using d3.js data visualization library

dineXchange *(*TartanHacks Project)
- Implemented backend with Flask, Google Maps integration, and CMU Google Apps Authentication
- Oversaw git management and deployment to Heroku

Analog Synth (Build18 Project)
- Applied circuitry and musical knowledge to create an analog modular synth, using no digital components
- Created a Ring Mod filter, best known for its application on *Doctor Who* to create the iconic Dalek sound

CMU Wi-Fi (15-112 Term Project)
- Visual Wi-Fi analyzer to map signal on CMU campus
- Implemented Shepard's method for inverse distance weighting on the Wi-Fi Signal to Noise ratio

ACTIVITIES

Activities Board Technical Committee - Provides professional grade entertainment production services
W3VC - Amateur radio club, organizes Buggy Safety Net and events for ham radio enthusiasts
Kiltie Band - The Band Without Pants…a tradition since 1908
